

Academic Year: 2026-2027

Semester: V

Class / Branch: TE B

Subject: Agile Software Development & DevOps

Name of Instructor: Prof. Sameer Nanivadekar

Name of Student: Vighnesh Pingale

Student ID: 24107108

Date of Performance: 19/09

Date of submit: 19/9

## Assignment No. 1

Q1 : Apply Agile principles and techniques to develop and prioritize User Stories with suitable Acceptance Criteria for any one application domain (E-commerce / Healthcare / College ERP / Banking / Food Delivery), and implement the Product Backlog using Jira. [LO1, L3]

Implementation:

The screenshot displays the Jira web interface. The top section shows the 'Name your space' setup screen, which includes a text input field for the space name (currently 'College ERP System'), example space names like 'My Software Team', 'Team Astro', 'Front-End Dev', 'QA Testing', and 'Bug Tracking', and a 'Get started' button. Below this, the 'College ERP System' board is visible, showing a Kanban-style workflow with columns for 'TO DO', 'IN PROGRESS', and 'DONE'. The board contains two tasks: 'Task 1' (Due date: Sep 24, 2026, SCRUM-1) and 'Task 2' (Due date: Sep 29, 2026, SCRUM-2). The left sidebar shows the navigation menu with options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Spaces', 'Filters', 'Dashboards', 'Assets', 'Teams', 'Goals', 'Projects', and 'Customize sidebar'. The bottom of the screen shows the Jira footer with search, create, and other utility buttons.

Three screenshots of the Jira 'College ERP System' sprint board, showing the progression of tasks from 'To Do' to 'In Progress' to 'Done'.

**Screenshot 1 (Top):** The 'To Do' column contains three items: 'Student Attendance Tracking' (SCRUM-6), 'Student Timetable Access' (SCRUM-7), and 'Student Examination Results' (SCRUM-8). The 'In Progress' column is empty. The 'Done' column contains one item: 'Student Login to College ERP' (SCRUM-5).

**Screenshot 2 (Middle):** The 'To Do' column contains two items: 'Student Timetable Access' (SCRUM-7) and 'Student Examination Results' (SCRUM-8). The 'In Progress' column contains one item: 'Student Attendance Tracking' (SCRUM-6). The 'Done' column contains one item: 'Student Login to College ERP' (SCRUM-5).

**Screenshot 3 (Bottom):** The 'To Do' column contains two items: 'Student Timetable Access' (SCRUM-7) and 'Student Examination Results' (SCRUM-8). The 'In Progress' column is empty. The 'Done' column contains two items: 'Student Login to College ERP' (SCRUM-5) and 'Student Attendance Tracking' (SCRUM-6).

Two screenshots of the Jira software interface showing a Scrum board for the 'College ERP System' project.

**Top Screenshot:** The board shows a sprint in progress. The 'To Do' column has 1 item: 'Student Examination Results' (SCRUM-8). The 'In Progress' column has 0 items. The 'Done' column has 3 items: 'Student Login to College ERP' (SCRUM-5), 'Student Attendance Tracking' (SCRUM-6), and 'Student Timetable Access' (SCRUM-7). A 'Complete sprint' button is visible.

**Bottom Screenshot:** The board shows the same sprint, but the 'To Do' column now has 0 items. The 'In Progress' column still has 0 items. The 'Done' column now has 4 items, including the previous three plus 'Student Examination Results' (SCRUM-8). The 'Complete sprint' button is still visible.

Q2 : Implement source-code management practices using Git and GitHub for the application developed in Assignment 1. Create a Git repository, perform commit management, create and merge branches, and collaborate with team members through GitHub. [LO2, L3]

Implementation:

```
